

WHY PROMARK

- Promark provides hardware and software solutions to Value Added Resellers
- Promark has a GSA Contract for partner enablement
- Promark has a dedicated Marketing Department to build sales and increase pipeline
- Expand your reach with Promark Professional Services

NUTANIX

Nutanix leverages a hybrid delivery model to capitalize on public cloud advantages while retaining the security and control of private datacenters. Any workload, any scale. Deploy as a turnkey appliance or as software on leading servers

NUTANIX ALLIANCE VENDORS:

Veeam and Nutanix together can help tackle data protection challenges in virtualized environments. Veeam® recognizes the new challenges companies across the globe face in enabling the Always-On Enterprise™, a business that must operate 24.7.365.

Rubrik powers on applications for recovery, search, development, and cloud. Rubrik allows you to easily manage all your data on one platform, mobilize your apps, automate protection policies, recover from Ransomware, search anything and analyze at scale

Comtrade Softwar's HYCU is simple to use, ready-to-roll intelligent application data protection for Nutanix. HYCU is the only purpose-built data protection solution for Nutanix's enterprise cloud architecture. HYCU deploys in less than three minutes .
