

**CASIO AMERICA, INC**

**Voluntary Product Accessibility  
Declaration of Exemption and Compliance  
Section 50 Subsection 1194.24 Video/ Multimedia Products  
For CASIO Data Projectors Only**

The purpose of the **Voluntary Product Accessibility Declaration** is to assist Federal contracting officials and other buyers in making preliminary assessments regarding the availability of commercial "Electronic and Information Technology" products and services with features that support accessibility. It is assumed and recommended that offerers will provide additional contact information to facilitate more detailed inquiries.

There are three columns in each table. Column one of the Summary Table describes the subsections of subparts B and C of the Standards. The second column describes the supporting features of the product or refers you to the corresponding detailed table, e.g., "equivalent facilitation." The third column contains any additional remarks and explanations regarding the product. In the subsequent tables, the first column contains the lettered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

**Date:** 7/31/12

**Name of Product:** CASIO Laser & LED Hybrid Projectors

<i>Criteria</i>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
a) All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals.	<b>NOT APPLICABLE</b>	For Sub items A and B, CASIO Projectors do not have built-in tuners and/or receivers and therefore exempt from these standards.
(b) Television tuners, including tuner cards for use in computers, shall be equipped with secondary audio program playback circuitry.	<b>NOT APPLICABLE</b>	
(c) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain speech or other audio information necessary for the comprehension of the content, shall be open or closed captioned.	<b>NOT APPLICABLE</b>	For sub items C, D and E, CASIO Projectors do not internally generate the display content. All content are input to the projector solely for the purpose of display and therefore exempt from these standards.
(d) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain visual information necessary for the comprehension of the content, shall be audio described.	<b>NOT APPLICABLE</b>	
(e) Display or presentation of alternate text presentation or audio descriptions shall be user-selectable unless permanent.	<b>NOT APPLICABLE</b>
