

GSA Vendors

		APPDYNAMICS	arcserve®	 a Hewlett Packard Enterprise company	

1. Partner Authorization:

- One of two ways to become an eligible GSA Reseller on Promark's Schedule:
 - **Contractor Teaming Agreements (CTA)** – are established for those Resellers who hold their own GSA Schedule.
 - **Participating Dealer / Agent Agreements** – are established for those Resellers who do not hold their own GSA Schedule. This allows the ability to sell all products through Promark/Ingram's GSA Schedule, with appropriate Vendor Authorizations.

2. Vendor Authorization:

- Check Promark/Ingram GSA Vendor Chart below for Authorization Requirements if any.

3. Quoting:

- Confirm GSA cost and part number with your Promark/Ingram Representative. (GSA Skus may differ from commercial).
- Do not quote higher than the GSA "Not to Exceed Price" on your quote to the End-User.
- Always reference the GSA Schedule #: **GS-35F-303DA**
- You cannot charge shipping cost or taxes to a Federal Agency using the GSA Schedule.
- Promark is a "Large Business" and as such does not qualify for small business, set-aside opportunity requirements.
- Product not on Promark's GSA Schedule should be clearly identified as "Open Market".

4. Placing an Order with Promark/Ingram:

- Submit PO indicating that it is a GSA Order.
- Include Government End-User's PO (the .75% IFF is based off the awarded price).

5. Receiving Product:

- All orders will be shipped within the specified terms of GSA contract.

6. Invoicing:

- Your company will receive an invoice from Promark/Ingram upon order fulfillment.
- Invoices include: price of product sold, IFF, applicable shipping, and administrative charges.

7. Reporting:

- Quarterly reports are required from all reseller partners and are due by the tenth day of each month following a calendar quarter.
